Ms. Bronna Lipton
Board Member
Second Chance Toys

Dear Bronna,

On behalf of New Community Corporation and Harmony House, I want to express our heartfelt gratitude to Second Chance Toys for the delivery that was made to youngsters at our Harmony House Early Learning Center shortly before Christmas. The children sat quietly on the rug in their classroom, anticipating the visitor we had told them about. When Mr. Drew Trautman from 1-800-Got-Junk? walked in carrying the toys with his assistant, their eyes widened with excitement!

Following their teacher's instructions, the children were permitted to each choose a couple of toys during class time and play with them after all the toys had been brought inside the classroom. It was such a joyful time and I think Mr. Trautman also enjoyed playing a starring role in this "Kids in Toyland" production.

Again, we can't thank Second Chance Toys enough, especially during these times when many of our families are struggling because of the economy. Your organization has really made a difference in the lives of these small children.

We also really appreciate you having your corporate partner, the Investors Savings Bank, donate toys from its Lafayette Street branch in Newark to our Hispanic Development Corp. for its upcoming Three Kings Celebration. The Hispanic Development toy collection was really running short this year and we are so appreciative!

Bronna, we just want to say 'thank you' to Second Chance Toys—for touching so many lives. It means so much, especially at this time of year.

Sincerely,
